

How popular is your name in Minnesota?

By Jeff Hargarten and MaryJo Webster Star Tribune | MAY 15, 2023 — 4:24PM

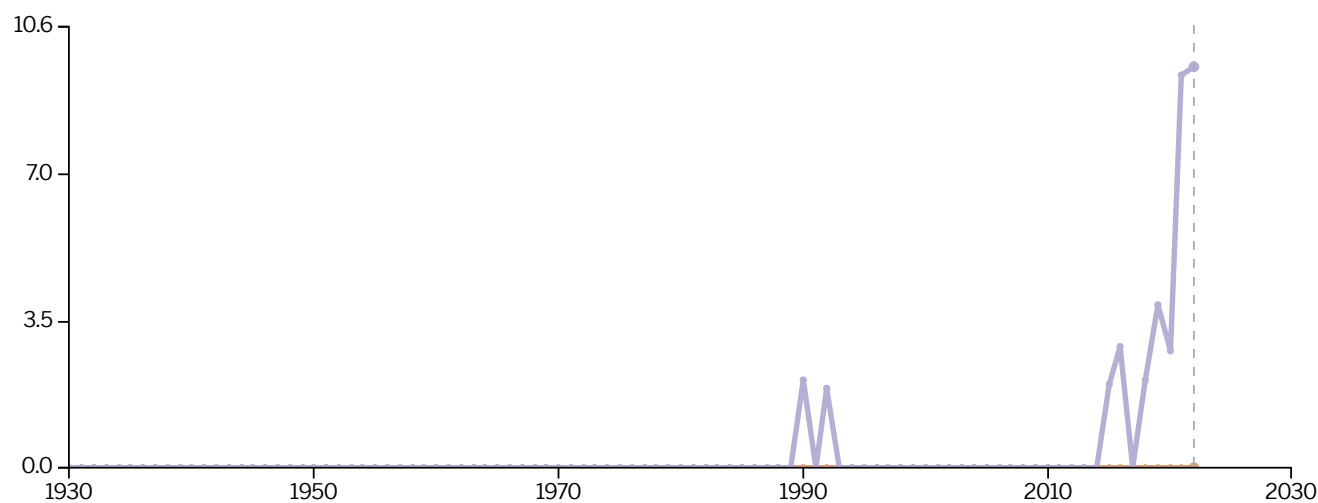

Each year, the Social Security Administration releases data showing the popularity of first names throughout the country, state-by-state. And each year, the Star Tribune analyzes that data to determine which names are most popular in Minnesota, both currently and over time.

Enter a name into the search box to reveal how it's trended in Minnesota from the early 20th century to now.

Type name and press enter

Trending Minnesota names

Names with the largest rate change between 2018 and 2022.

Data is based on Social Security applications and names are only listed in the data if there were at least five babies, of the same gender, with that name in a given year. Names are broken down by either male or female; those are the only options provided on the Society Security application form.
